## Experiences

**2023-2025**

### standard+ / Founder

standardplus.app

- Solo-built and launched MVP → **Next.js / Express API / MongoDB (auth, payments, search, prod deployed) · AI exploration (embeddings) · NFC certification (cryptographic)**
- +40k€ raised · incubated at Sorbonne Center for AI, cooperation with AI PhD · Onboarded 10 professional designers · Recruited 4 interns.
- standard+ is a platform for on-demand design objects, featuring AI exploration and locally produced through an automated 3D printing process.

**2020**

### DDB Paris / Art Director

- Led creative direction and storytelling for global brands (McDonald's, Volkswagen, ARTE), delivering high-performing digital content.
- Produced campaigns reaching 3M+ cumulative views, collaborating with marketing and strategists.
- Translated complex briefs into clear visual systems, and motion/digital assets optimized for platform constraints.

**2019**
Internship

### DS automobiles (Stellantis) / Interactive Designer

Designer of branding and assets for interactive real time experiences to be deployed across dealership network.

**2018**
Internship

### Extia / Motion designer

**2017**
Internship

### Delasource / Graphic designer

## Education

**2023-2024**

### CELSA (Sorbonne University), Paris

**Master's** in Entrepreneurship and Innovation
Covering marketing strategy, financial modeling, business development, and communication.

**2021-2022**

### ENSCI, Paris

**Post-Master's degree** in Industrial and Product Design
Bridging technological exploration, user experience, and material experimentation.

**2019-2021**

### DSAA in Applied Arts/Design, Boulogne-Billancourt

**Master's degree** in Applied Arts focused on interactive design, combining interfaces, 3D environments, and real-time systems.

**2018-2019**

### EPSAA, Ivry-sur-Seine

**Post-bachelor** in digital media and creative technologies.

**2016-2018**

### University Institute of Technology (IUT), Gustave Eiffel University

**Bachelor** in multimedia, code and science

## Skills

### Language and skills :

**Front-end** → Next.js · React · HTML/CSS · Three.js
**Back-end** → Node.js / Express.js · MongoDB · REST APIs
**Blockchain & AI** → OpenAI API integration · Model deployment · Solidity · Web3.js
**Automation & DevOps** → Python · Bash · Git · Docker · AWS / GCP deployment

### Software :

**Design & 3D** → Adobe Suite · Figma · Cinema 4D w/ Octane Render · Unity · Blender · Fusion 360 · SuperSlicer
**Prototyping & Electronics** → Arduino · Raspberry Pi · NFC chips · 3D Printing (FDM / PETG / PLA)
