Experiences

2023-Ended **Design engineer** standard+

standardplus.app

- Founder of an additive manufacturing startup : Next.js, TypeScript, Express, MongoDB, NextAuth, Stripe, semantic search.
- €40k raised, Sorbonne Center for AI incubation, City of Paris support. Collaboration with an AI PhD.
- Owned design system and features end-to-end.
- Hired and managed 10 designers + 4 interns. Set up code review and release process from zero.
- Built an AI embeddings pipeline for product discovery and recommendation.
- Designed and integrated a cryptographic NFC certification system on physical products.

2021 **Junior Art Director** DDB Paris

- Led creative and storytelling for global brands (McDonald's, Volkswagen, ARTE), delivering high volume digital content.
- Produced campaigns reaching 3M+ cumulative views, collaborating with marketing and strategists.
- Translated complex briefs into clear visual systems, and motion/digital assets optimized for platform constraints and performance.

Skills

Front-end	Next.js · React · TypeScript · Three DREI · Tailwind · Framer Motion · CSS animations
Back-end	Node.js / Express · MongoDB · REST APIs · NextAuth · Stripe · OpenAI API
AI workflow	Cursor · Claude Code · Figma MCP · v0
Design	Figma (advanced, design systems) · Adobe Suite · Cinema 4D / Octane · Blender · Fusion 360 · Unity
DevOps	Bash · Git · Docker · AWS / GCP deployment · Proxmox

Education

2021-2022 **ENSCI** Paris

Post-Master's degree in Industrial and Product Design
Bridging technological exploration, user experience, and material experimentation.

2019-2021 **DSAA in Applied Arts/Design** Boulogne-Billancourt

Master's degree in Applied Arts focused on interactive design, combining interfaces, 3D environments, and real-time systems.

2018-2019 **EPSAA** Ivry-sur-Seine

Post-bachelor in digital media and creative technologies.

Additional

2023-2024 **CELSA (Sorbonne University)** Paris

Master's in Entrepreneurship and Innovation
Covering marketing strategy, financial modeling, business development, and communication.

2024 **Crédit Agricole Prize** Hackathon Blockchain Vierzon

Digital invoicing compliance solution - 3k prize
Team of 4 (2 devs, 1 sales and me) by creating a product that implements new blockchain system developped by Crédit Agricole bank and assets.
