Experiences

2023-2026 **Product engineer** standard+

standardplus.app

- Founded an additive manufacturing design object startup : **Next.js, TypeScript**, Express, MongoDB, NextAuth, Stripe, semantic search.
- **€40k raised**, Sorbonne Center for AI incubation, City of Paris support. Collaboration with AI PhD.
- **10 designers** with a total of 40 different designs.
- Hired and managed 4 interns. Set up code review and release process from scratch, and **weekly prod push.**
- Built an AI embeddings pipeline for product discovery and recommendation across 5 search parameters.
- GA4 and GTM server side tracking.

Skills

Front-end	Next.js · React · TypeScript · Three.js/drei
Design	Figma · Adobe Suite · C4D / Octane
AI workflow	Cursor · Ollama · Claude Code · OpenClaw · Figma MCP
Back-end	Python · Node.js · Express.js · MongoDB · Postgres · NextAuth
Analytics	GA4 · GTM server side · Hotjar · Mixpanel
DevOps	Bash · Git · Docker · AWS / GCP deployment · Proxmox

Education

2021-2022 **ENSCI** Paris

Post-Master's degree in Industrial and Product Design
Product conception from user need to technical feasibility; prototyping, hardware-software integration.

2019-2021 **DSAA in Applied Arts/Design** Boulogne-Billancourt

Master's degree in interface design, interaction design, design systems, real-time and 3D environments.
Prototyping interactive products end-to-end, from user problem to a working interface/product.

2018-2019 **EPSAA** Ivry-sur-Seine

Post-bachelor in digital media and creative technologies.

Additional

2023-2024 **CELSA (Sorbonne University)** Paris

Master's in Entrepreneurship and Innovation
Covering marketing strategy, financial modeling, business development, and communication.

2024 **Crédit Agricole Prize** Hackathon blockchain at vierzon

Digital invoicing compliance solution - 3k€ prize
Team of 4 (2 devs, 1 sales and me) built a product implementing a new blockchain system from Crédit Agricole Corporate Investment Bank.

2020 **Internship Junior Designer** DDB Paris

- Led creative and storytelling for global brands (McDonald's, Volkswagen, ARTE), delivering high volume digital content.
- Produced campaigns reaching 3M+ cumulative views, collaborating with marketing and strategists.
- Translated complex briefs into clear visual systems, and motion/digital assets optimized for platform constraints and performance.
